"Up to about six months ago," says a gentleman living in Brooklyn, N. Y. "I was a constant sufferer from liver trouble and indigestion. I grew so thin that one could almost look through me, and was as cross and hateful to my family as a man who drinks. I tried this and that remaily which was recommended to me by physicians and friends without obtaining any benefit, and had given up all hope and resigned myself to death, which I firmly believed was not far away, but am thankful to say that I am still alive and gaining so capidly in firsh and strength that my friends scarcely know me, and I owe it all to the use of Ripans Taboles. While coming home one night a gentleman I met produced a box of Tabules and told a friend how much good they had done him. I resolved that I would try them, but had little hope of their benefiting me. I think that it was the end of the second week I took them that I began to realize my whole system was undergoing a complete change. I could eat heartly and never feel the worse for it, and besides my food was digested and I commenced to gain fieth. I would most urgently ask any one who may be suffering as I did to try Ripuns Tabules. I have no fland time for taking them, but take them at all hours of the day."
